

Date: _____

Dear Earth!

Today is a special day for all the people around the world.

Today is the 22nd of April.
We are celebrating "Earth Day" now!
This day reminds us to take care of Earth and to make our world a better place to live.

My name is David Tagor.
I am from Israel. My country is small but very beautiful. I live in Ashdod.

I am proud to live in Ashdod. It is a big and modern city. About 200.000 people live here. Ashdod is near the sea. There is a big port in Ashdod. It is very important. There are many green parks and playgrounds for children. My favorite place is the beach.

I am a pupil in the 6th grade. The name of my school is "Hazon Yaacov".

450 pupils learn at my school. It is not big. We have a new sports gym. We love it! There is a big schoolyard outside too. Boys like to play football and basketball there. Girls like to jump rope and and play ball.

There are many tall trees and colorful flowers around my school.

Today all the pupils at my school are wearing green T-shirts and green caps.

Everybody is outside now. We are cleaning up the schoolyard right now.

The boys are picking up the trash and the girls are sweeping.

We are putting all the trash in the recycling bins behind the school.

The teachers are planting some trees. Everybody is happy to help.

Now the schoolyard is clean and nice.

I promise you to make "Earth Day" -Every Day!

I promise you to help my family learn how they can help the environment too.

I am sending you the picture of my school on "Earth Day"!

Thank you for this wonderful world!

Love, David
